

SAVE THE DATE!
**2017 Six Elements
International Meeting**

April 21, 2017 | Pre-AAO Annual Session

Mark your calendar and plan to arrive in San Diego, California, in time for the Annual Six Elements™ (6E) Meeting on Friday April 21st in San Diego, California (Pre-AAO Annual Session).

For as long as orthodontics has been practiced, there has been a search for treatment goals that are uniquely correct for each patient, a positionally-accurate classification system, and rules for treating that match biologic potential.

Eight authorized Six Elements Orthodontic Philosophy teachers will provide solutions to many long-standing treatment goal problems.

The Six Elements Orthodontic Philosophy™ is being taught in an increasing number of accredited orthodontic and orthognathic surgery residencies in the United States and worldwide.

More exciting details will be sent soon!

WHEN

Friday, April 21, 2017
